PET/CT SCAN

Do not eat or drink anything except water for 4-6 hours before your exam because it could interfere with the results; **don't even chew gum.**

If you take medications, drink only enough water to swallow them.

If you have been advised not to take your medications on an empty stomach, you may eat a few crackers with your medications 4-6 hours before your exam.

If you are diabetic, let us know ahead of time so we can work with your physician to determine the safest possible way for you to prepare for your exam.

If you feel feverish, please call this to our attention.

Please let us know if you might be pregnant or are currently breast feeding.

No strenuous exercise six hours prior to your scan. No strenuous exercise six hours prior to your scan.

Please bring copies of your most recent PET/CT films and reports with you to the exam. They will be returned after the radiologist has reviewed them.
